

Application No. 10/624,963  
March 1, 2006  
Page 2

**Amendments to the Specification**

At the beginning of the specification please amend the first full paragraph to read as follows:

**PRIORITY INFORMATION**

This application is a continuation of U.S. Patent Number 6,616,451, entitled ELECTROMAGNETIC RADIATION EMITTING TOOTHBRUSH AND DENTIFRICE SYSTEM, which issued on September 9, 2003 and which claims the benefit of U.S. Provisional Application No. 60/050,343, filed on Jun. 20, 1997, which are commonly assigned and the contents of which are expressly incorporated herein by reference.

Line 3 to line 7 on page 5 have been amended to read as follows:

The handle 4 is provided with a light-emitting device 14 for generating the electromagnetic radiation. Embodiments of the invention may use any suitable means for generating the electromagnetic radiation, such as a semiconductor laser that generates monochromatic electromagnetic radiation or a light emitting diode that emits polychromatic electromagnetic radiation.
